

medac

» medac offers exciting challenges for those who want to make a difference in the field of pharmaceuticals. In a company which thinks about the future - and about what concerns us, its employees.

For our Therapeutic Areas & Autoimmune Germany department, we are looking for you as a

Global Market Access Manager (m/f/d)

Are you an innovative scientist with a passion for detail and a team spirit? We are looking for employees with qualifications in pharmacology, human medicine or biology for the scientific-pharmaceutical sector. Here at medac, you can expect new challenges, regular advanced training, internal exchange and attractive social security provisions in a forward-thinking and future-orientated company. With passion, team spirit and appreciation for one another.

Your Tasks

- evaluation of in-licensing opportunities with regard to reimbursement and pricing in the respective countries.
- strategic planning of the market access for development projects.
- organisation and management of pricing and reimbursement studies.
- implementation of pricing and reimbursement requirements in clinical trial designs.
- support of country organisations during launch periods.
- providing country organisations with Core Value Dossiers in cooperation with internal functions and external service providers.
- modelling of launch sequences and optimisation for the Medac group.

Your Profile

- first degree in health economy, economics, pharmacy, medicine or natural sciences.
- highly motivated team player.
- well-structured working approach and excellent management skills.
- profound experience in international market access in pharmaceutical industry.
- excellent communication skills both in written and spoken in English and medium communication skills in German.
- high service orientation.

- management of market access project groups consisting of HQ functions and representatives of core countries.
- calculation of consequences of price adjustments mainly in EU countries for referencing countries.
- generation of pharma economic argumentations for marketing functions before launch and in commercialisation period.

About medac

medac is a prestigious Hamburg pharmaceutical company specialising in the new and further development of therapeutic and diagnostic agents for oncological, urological and autoimmune conditions. Although we can already look back on almost 50 years of successful company history and solid values, we are not bound by the past. Over 1,200 dedicated employees ensure the reliable provision of innovative and safe pharmaceuticals and medical devices. In the process, we run our business in a forward-looking, personal manner, with a focus on the individual quality of life of the patients.

If you are looking for a new career challenge and a future-oriented role, then we are looking forward to receiving your application including your earliest possible starting date and salary expectations. For your convenience, please feel free to use our online application form on [medac.de](https://www.medac.de).
