

# Postdoctoral Researcher in Health Economics and Financing (m/f/d)

fulltime - JobID: P0025V186

to join the Division of Tropical Medicine at the Heidelberg University Hospital working together with Heidelberg University's Institute of Global Health, Germany's largest international global health research institution. Starting date is **flexible in first quarter 2020**.

The appointment is for 2 years, but we are looking for someone interested to invest in the group and to whom we are eager to offer a longer term prospective. The position is based in Heidelberg, with field work visits to India.

We are looking for a health economist to work on Health Economics and Financing of Diagnostic solutions for Limited Resource Settings.

## Tasks and responsibilities

- Assist the PIs with data intake, data management, and analysis;
- Collaborate to other projects nested within the research group;
- Identify relevant research questions (complementary to the primary research questions set by the project) with potential for further research and lead analyses/project development on these questions;
- Apply for funding and contribute to funding applications of the research group;
- Publish in peer-reviewed journals and present at international conferences
- Teach at postgraduate level and contribute to supervising Master and doctoral students;
- Actively participate in the group and institute life (e.g. seminar series, workshops).

## Qualifications

### Required:

- Doctoral degree in economics, health economics, development economics, or social epidemiology (or equivalent qualification);

- Strong quantitative analytical skills with specific knowledge of economic evaluation and modeling and preferably also econometrics;
- Ability to work both independently and as a member of a multicultural team;
- Good communication and writing skills in English.

**Desired:**

- Specific experience with economic evaluation in low- and middle-income settings
- Specific experience with diagnostic solutions for low- and middle-income settings
- Evidence of published research in peer-reviewed journals;
- Work and research experience in low-income settings;
- Track record of writing grant applications.

**We offer**

- Research experience in a large cutting-edge interdisciplinary research team;
- Payment according to German public service salary scale **TV-L**
- Academic support and opportunity to develop your own research profile;
- Pleasant work environment in an enthusiastic team of colleagues;
- Involvement in national and international collaborations;
- Support with developing your research career in health economics/ international health (e.g. Habilitation) and longer-term employment perspectives.

**Contact & Application****Interested?**

Please send your CV, a cover letter expressing your motivation to join the team, and copies of all relevant certificates and transcripts, compiled in one pdf file, by email.

Applications will be considered until the 31st of January 2020.
